

Part III Patient Encounters and Performance Skills (PEPS®) Examination

SITE INFORMATION & EQUIPMENT LIST

As of February 27, 2024

The information listed in this Part III PEPS Examination Site Information and Equipment List is for informational purposes only. There may be additional equipment or supplies on-site during the exam that may not be reflected in this manual. **Additionally, consumable supplies (e.g., alcohol wipes, tissues, cotton-tipped applicators) may change without warning.**

This information is not intended to prepare candidates for the exam, but to provide a general overview of equipment and supplies used during the exam. Candidates are reminded to thoroughly review the evaluation forms and Candidate Guide to adequately prepare for the Part III PEPS Examination.

Part III PEPS EQUIPMENT QUICK REFERENCE:

All Stations:

- Candidate device (Chromebook); candidate will bring into each room

Patient Encounter Stations:

- Reliance 6200-L Chair
- Optional docking station (desktop monitor, keyboard and mouse)
- Note board (Tagau LCD Writing Tablet 15 inch)

Anterior Segment Station:

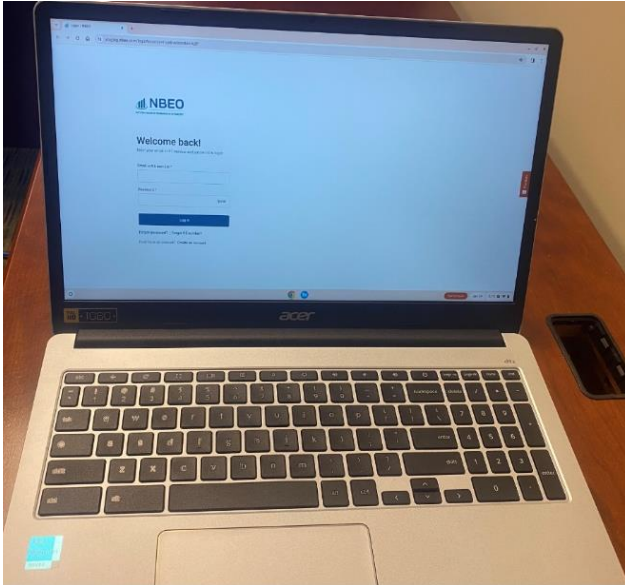

- Reliance 6200-L Chair
- 7900-IC Floor Stand
- Haag-Streit 900 BI Slit Lamp Video System
- Goldmann applanation tonometer with tonometer prism
- Volk 4-Mirror Glass Gonio Fundus Lens with Flange

Posterior Segment Station:

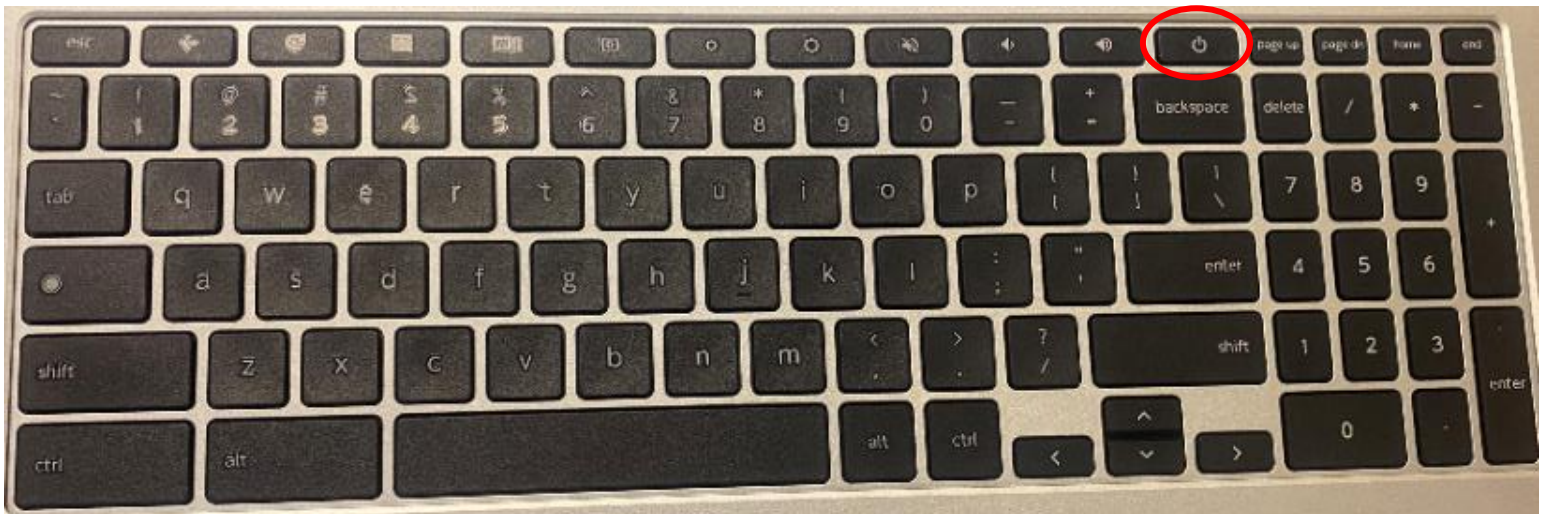

- Reliance 6200-L Chair
- 7900-IC Floor Stand
- Haag-Streit 900 BI Slit Lamp Video System
- Keeler BIO Vantage Plus Slimline Wireless Plus Indirect System with +2.00 D Oculars
- Volk 20D Condensing Lens
- Volk VDGTL1 Digital High Mag Imaging Lens
- Volk Digital Wide Field Lens
- Volk 78D & 90D Lenses

CANDIDATE DEVICE

Candidates must log into the device when directed. Candidates will have the device during orientation and throughout the exam. Please review the tutorial for specific instructions on using the platform.

Be mindful of the power button on the device. Candidates must never power down the device during the exam.

Candidates will have access to the following on their device during orientation time: evaluations, candidate guide, and site information and equipment list. Please note that 7 minutes before the exam is scheduled to start, the candidate's device will no longer be able to access this information.

Candidates will have access to the orientation video and tutorial during orientation but not on the candidate device.

During the exam, the candidate will be able to use their device to:

- View station overview information
- View patient encounter clinical data
- Order and review ancillary tests
- Complete assessment and plans
- Monitor break, observation/overview, and exam cycle time

PATIENT ENCOUNTER (PE) STATIONS

ROOM OVERVIEW

(WITH CANDIDATE DEVICE SHOWN)

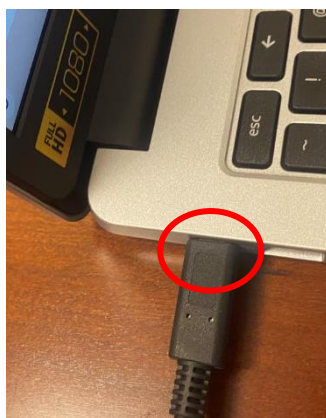

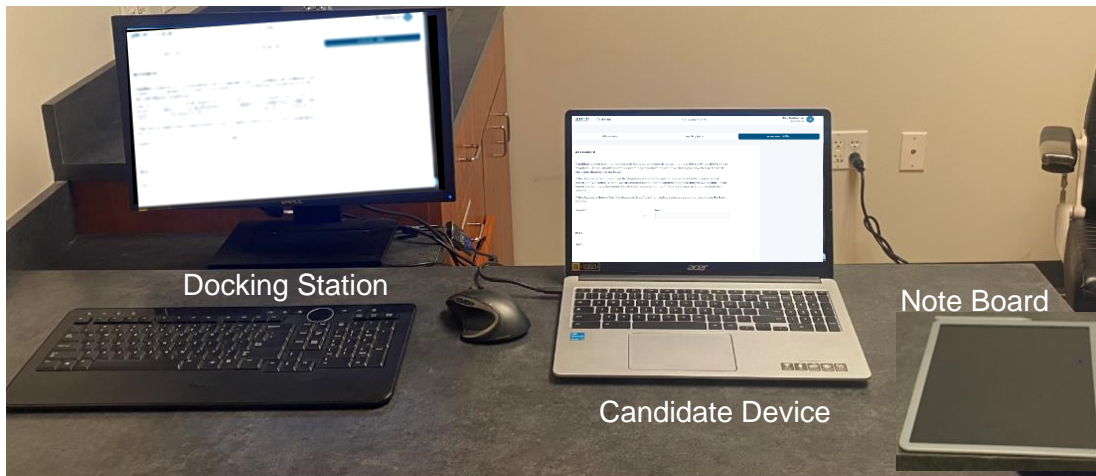

PATIENT ENCOUNTER (PE) STATIONS

DOCKING STATION

Each PE Station includes a docking station. A docking station provides access to a desktop monitor, keyboard and mouse. The desktop monitor can be used as a larger screen to view images.

Use of the docking station is optional.

If a candidate wishes to use the docking station, candidates will need to connect the device to the docking station. When connecting to the docking station, ensure the cable is fully pushed into the port as displayed in the image to the left. If you have difficulty connecting, inform the SP or the hallway monitor.

When connected to the docking station, candidates may use a keyboard/mouse and their laptop screen will be mirrored onto a desktop monitor.

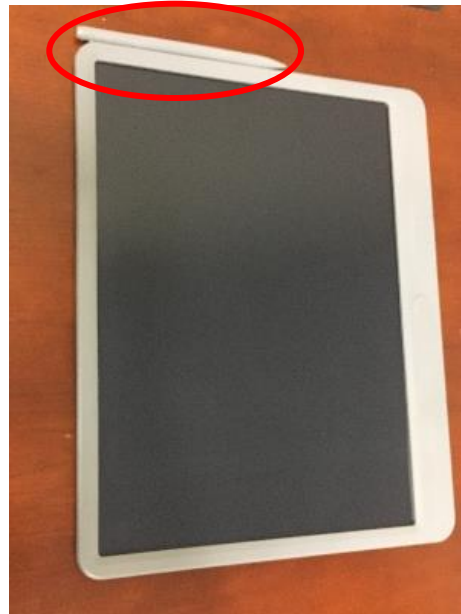

PATIENT ENCOUNTER (PE) STATIONS

NOTE BOARD

Candidates may take notes in the PE rooms during observation time and throughout the exam cycle using a note board.

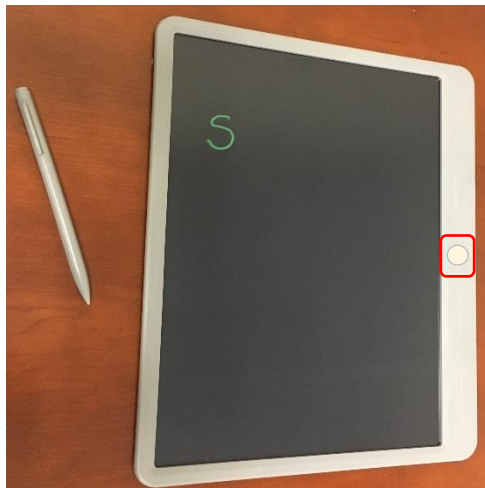

Note boards must remain in the exam room.

The note board uses a stylus to write. Slide the stylus to the left to use.

Lock and Unlock

The note board will be in the locked position when the candidate enters the room. The locked position will prevent the candidate from accidentally clearing their notes. If a candidate wishes to clear their notes, they must unlock it. The unlocking toggle switch is on the back of the device.

Clear

To clear out all data on the board, unlock the board and press the button on the right.

Once cleared, the previous information can not be restored.

SKILLS STATIONS LIGHTING

MAIN OVERHEAD LIGHT SWITCH, DIMMER LIGHT SWITCH, AND SLIDER

Located to the left of counter area
Location of this switch is the same in EVERY exam room

Main overhead light switch is located on the LEFT
Dimmer light switch is located on the RIGHT
Slider to adjust dimmer brightness is on the RIGHT side of the dimmer switch

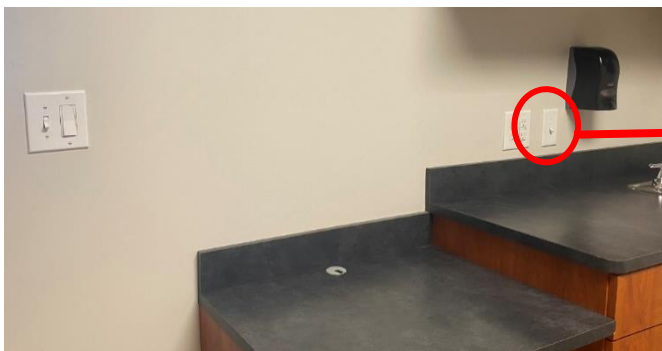

Because there are two main overhead light switches in the exam room, candidates may need to place the switch in the up or down position to adjust the overhead lights.

UNDER-CABINET LIGHT SWITCH

Located above the sink counter, by soap dispenser

SKILLS STATIONS

EXAM CHAIR

Exam Chair Overview

Reliance 6200-L Chair

Exam Chair Overview

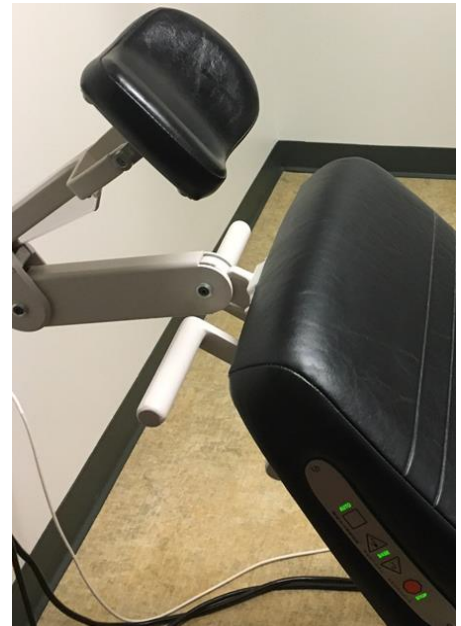

Reliance 6200-L Chair

To recline the exam chair:

Pull DOWN on the lever located on the back of the chair

Lower the chair and position appropriately

Release the lever while lowered to lock the chair in place

To rotate the chair, push the silver handle towards the floor. When the chair is in position, pull handle to the original position to lock in place.

SKILLS STATIONS

SLIT LAMP OVERVIEW

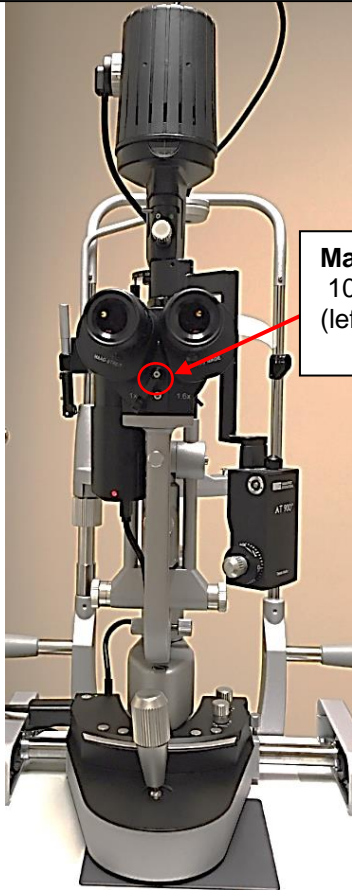

Slit Lamp

Haag-Streit 900 BI Slit
Lamp Video System

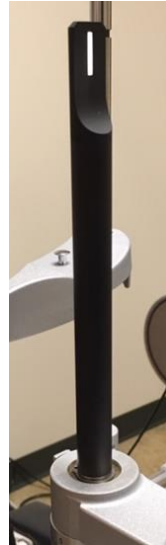

CAMERA IS ON THE LEFT OCULAR

For optimal views,
candidates must use
focus rod to focus the
oculars

Bright White:
Top pin fixed all the way
to the left,
cannot be moved
